

## FOTO PROJEKTOVÝ DEN MŠ PŘÍBRAM NA MORAVĚ, 25.1.2022 MY BODY

## SUMMARY

In this Project Day, the topic was "My Body." Learners ranged from the age of 3 to 7, with varying proficiencies in English language skills, writing skills, and fine motor skills. Students were encouraged to explore this topic by looking at various English language books, both fiction and non-fiction about the topic. Next, students put together various puzzles (face, body) and repeated the target vocabulary (head, hand, foot, leg, arm, nose, eyes, mouth, ears, etc.). We also played a board game that encouraged use of this vocabulary. During "circle time" the students formed a large group and used TPR and learning through movement to reinforce the vocabulary. Students listened to 3 songs related to the topic and added movements. They learned to follow instructions such as "stand up," "sit down," "clap your hands," or "touch your toes." We ended the morning with a Goodbye song that incorporated most of these movements.
